

Season 3 Episode 6

Future of Fusion

In the future, a group of thugs paint ads on billboards for Dr. Membres. The ads show Dr. Membres holding money in one hand and holding a gun in the other and the background is on fire. One of the thugs said, "This is our best ad yet. Dr. Membres is sure to rule more of the government in the days to come." The thugs are on the rooftop of a building and then a black man dressed in a black with flowing purple lines lands on the roof. The thugs look at him and they take out their guns. The man in the suit fires a wave of energy at one of the thugs and it causes an explosion under his feet sending him flying off the building. The other thugs look scared and they try to run away and the hero zips to them and he picks up both of them. The hero said, "What do you guys know about Dr. Membres?" One of the thugs said, "We know everything you probably know." The hero said, "What do you know about his stronghold?" The thug said, "I don't know what you are talking about." The hero said, "That settles it." The hero drops the thugs off the roof of the building and he instantly catches them. The hero said, "Tell me where Dr. Membres lives." The thug said, "Ok, ok, he lives on the north end of town in the Chinese palace." The hero said, "That is what I wanted to hear. I will let you go and tell the world that Captain Fusion is back." The camera focuses on the CF logo on Captain Fusion 2107's chest.

Captain Fusion 2107 zips to a mansion and he enters the main bedroom. A rich girl greets him in. She said, "Did you find anything on Dr. Membres?" Captain Fusion 2107 said, "I know he lives in the Chinese palace on the north end of the city. That is all I know right now." The rich girl said, "We better find out more about him. I don't want to have to marry him in two days." Captain Fusion 2107 said, "It sucks that you have to marry that creep. I wish I could send a charge to him and..." Dr. Membres enters the bedroom and he said, "Ah, Darlene, my dear. We have a photo-shoot right now that I intend is to be done before our wedding in two days and before you have to go and record your next album. You already had five albums out this year and it would be great for you to have another one so I could get more money for it." Darlene said, "Fine." Darlene reluctantly goes with Dr. Membres. The janitor is Jason and he sweeps the floor and he sees this happen.

That night, in the dining room, guests from all over the world visit the mansion and Dr. Membres and Darlene are at the center of attention. Dr. Membres gets up and he said, "I would like to have a toast to the famous pop star, Darlene. She is my beautiful girlfriend that I would love to make into a wife in two days. What do you have to say?" Darlene gets up and she sees that there are thugs everywhere and she sees Captain Fusion 2107 in the crowd of attendees. Darlene said, "I think it would be wonderful to marry you." Everyone claps. Darlene and Captain Fusion 2107 leave the dinning hall and they are out in the foyer. Captain Fusion 2107 said, "Why did you just go with it? That was a perfect time to spill the beans about Dr. Membres and have him tried for his illegal rules of marriage and the fact that he controls most of the government." Darlene said, "Did you see all those thugs in there? Those thugs are going to beat me up if I tell the truth." Captain Fusion 2107 said, "We will settle this."

Captain Fusion 2107 drags Darlene back into the dinning hall and he takes a glass and

dings it to get everyone's attention. Captain Fusion 2107 said, "Everybody, I want to announce that this Darlene thinks Dr. Membres is a disgusting fraud that just wants her money." Everyone gasps and Dr. Membres laughs and he said, "We know that is not true, right?" Captain Fusion 2107 said, "It is true and I will pound anyone that tries to fight against Darlene." Darlene said, "I hate to break it to you but I don't like or love you at all." Dr. Membres' head grows big and red with anger and steam comes off his head. Dr. Membres said, "You think what!" Darlene said, "It's true." Dr. Membres said, "Did this guy talk you into it?" Darlene shakes her head, yes." Dr. Membres said, "I want this freak off my property." Darlene said, "It is my property actually." Dr. Membres said, "It is mine now. Did you read the contract?" Dr. Membres holds up the contract to Darlene. Her eyes go big in horror when she sees the part that says that all her property is now owned by Dr. Membres. Darlene said, "How could you do this?" Dr. Membres said, "Hey, the government listens to me and who are they going to believe?"

Captain Fusion 2107 rips off his tuxedo revealing his black and purple super suit. Captain Fusion 2107 said, "Leave her be!" Dr. Membres said, "Or what? You look familiar. Did you work for me at one point in time?" Captain Fusion 2107 said, "I don't have to answer that." Thugs crowd around them and Captain Fusion 2107 grabs Darlene and he flies with her to the ceiling and thugs take out their guns and shoot at them. Captain Fusion 2107 fires energy waves out of his hands and it makes the thugs go flying and they end up stuck in walls. Dr. Membres said, "What kind of nonsense is this?" Dr. Membres presses a button on his tux and a robot suit forms from under it. Dr. Membres climbs up on the wall and he goes for Captain Fusion 2107. Captain Fusion 2107 zips away with Darlene and he fires more waves of energy at Dr. Membres. Dr. Membres blocks the attacks and he jumps on the chandelier chain and he swings from it and he makes it hit Captain Fusion 2107 and Darlene and he causes them to get thrown out of the mansion window. They fly and they fall into the back of the janitor's truck. Janitor Jason sees them and Darlene said, "Get to the wheel and floor it." Jason gets to the wheel and he drives away and Dr. Membres jumps out of the mansion and he chases after them. Darlene sits next to Jason and Captain Fusion 2107 aims his hands out the windows and he fires energy waves at Dr. Membres but Dr. Membres does not lose them.

They speed through the busy future streets and they drive past ads with Dr. Membres on them. People stop and they look at the action and they take pictures of it. Dr. Membres smiles and waves to the people shooting images of him. Jason drives the truck down one zig-zag street and then he drives it down another zig-zag street. Jason drives behind a milk truck. Jason looks at Captain Fusion 2107 and he said, "Sir!" Jason points to the milk truck and Captain Fusion 2107 smiles. Captain Fusion 2107 uses the energy from his suit and he lifts the milk truck and he throws it into Dr. Membres. Dr. Membres' suit malfunctions and he is left on the street stuck in it. Dr. Membres said, "I hate milk. I will get those freaks."

Darlene and Captain Fusion 2107 cheer and they said, "That was great." Darlene said, "I didn't think a janitor could know so much. How did you know all that?" Jason said, "I've spent many years of my life reading comics and watching shows on TV." Captain Fusion 2107 said, "That's the spirit. I am sure Dr. Membres had nothing to do with that." Jason said, "They don't have Dr. Membres in my time." Captain Fusion 2107 said, "Time?" Jason said, "I am from the very early 21st century. You wear the logo of Captain Fusion. He is a great man in my time." Captain Fusion 2107 said, "You knew the original Captain Fusion?" Jason said, "Of course I did. I was a fan of him when I was a kid. I helped bring him out of exile."

Darlene said, "It looks like we all have a lot of talking to do."

Jason takes Captain Fusion 2107 and Darlene to Jason's apartment. It is small and run down. Jason said, "This is where I've been living for the last few months." Captain Fusion 2107 said, "How did you get here?" Jason said, "I will tell you." (Jason tells the story and it is shown what he is telling.)

Jason said, "My twin brother Mason was being boring by staying in his lab all day and working on pointless experiments. I had nothing to do so I went to Captain Fusion's lair. Captain Fusion had a new time traveling machine that was an improvement from his last one because this one can go far into the future. It uses a time-stream matrix to send people through decades and maybe even centuries into the future. Captain Fusion got me to be the first person to use the machine. I used it and everything flew right by me in the blink of an eye and I woke up in his place in this year of 2107. I had nothing and everyone I ever knew is gone and long forgotten and there aren't even any documentations of anything from my time. I eventually got a job and well, here I am now." Captain Fusion 2107 said, "That sounds incredible. I wish I had that kind of technology. All I have is this suit which I didn't even build." Jason said, "Why don't you tell me your story now?" Captain Fusion 2107 said, "Good idea."

Captain Fusion 2107 uses the same story telling method. Captain Fusion 2107 said, "In 2105, I finished grad school and I had a master's degree in most scientific fields of study. I wanted to go on and get a job but no one would accept me. Then, Dr. Membres dominated most of the government after a scandal and he got power over who got jobs and who didn't. He would make poor people even poorer and he would take a lot of money from families with children leaving them poor. I got hired to work in his documentation office where I had to destroy historical records from across all the past centuries. I read most of the documents. I learned about the great, Captain Fusion and his adventures. I even read about you Jason and Mason boys. I got a lot of ideas. I knew everything that was going on here was wrong and that someone needed to take a stand. I had access to one of his labs where he was making an experimental suit he wanted to use to help him dominate more of the world. He was going to use it on more people that did nothing wrong to him. I stole the suit from him and I have had it ever since. I learned a lot and I eventually trained myself to become the next Captain Fusion. Dr. Membres found out about me and he fired me and he made me a top of the top wanted criminal. I fought bravely against his evil robot forces he sent after me. Dr. Membres later destroyed my home and everything that I ever worked for. I kept this suit and I eventually found out he manipulated the legal system enough so he could marry anyone he wanted against his own will. I found out he wanted to marry the pop star, Darlene so he could get more money and become a more powerful force. This is where we are now."

Jason said, "That does sound pretty harsh. It also sounds like I left Mason for the best reason. This is going to sound very entertaining." Darlene said, "We should get something to eat. I am starving and that Dr. Membres food sucks." Captain Fusion 2107 said, "I guess we will go to our favorite place... the Sandwich King." Jason said, "I love that place."

Jason, Darlene, and Captain Fusion 2107 eat at Sandwich King. Jason gets a large burger and he bites into it and chews on it and his eyes go big and water. He spits out the burger and Jason said, "This burger sucks." Jason looks inside the meat and he sees it is green and black and it has yellow sparkles in it. Jason said, "This isn't meat." Captain Fusion 2107 said, "Eating meat that comes from animals is not politically correct in this time. Instead,

places have to make their meat with minerals found in caves in obscure parts of the world.” Jason said, “Well, it sucks.”

The TV is on in the Sandwich King and they see Dr. Membres is searching the city. It shows his robots entering Jason's apartment and going through stuff and destroying stuff. Captain Fusion 2107 said, “It looks like your place is no longer safe.” Jason said, “No kidding it is not. What are we going to do now?” Captain Fusion 2107 said, “I know where Dr. Membres lives. He ransacked your house so I guess we should return the favor.” Jason grins and he said, “I like the sound of that.”

The gang parks in a bush and Jason dresses all in black. Jason said, “I've done this a few times back in my day. This is just like old times for me.” Darlene stays in the truck and she looks over computer screens. Captain Fusion 2107 takes Jason to the roof of the place and he lets Jason enter the top vent and he falls down the vent. Jason crawls through it and he looks down a vent cover. He sees robots being tested. He goes to another vent cover and he looks down and he sees robots in storage. Jason goes to another vent and he sees Dr. Membres and his men manipulating government treaties and agreements so they favor him. He uses technology to forge signatures. Jason goes to his communicator and he said, “Captain Fusion 2107, do you copy?” Captain Fusion 2107 said, “I am here.” Jason said, “This place looks pretty bad. He is manipulating the legal system and he is building an army of killer robots to back him up. I think we are going to be needing an army of our own to deal with this.” Captain Fusion 2107 said, “Use that camera I gave you and shoot what you see.” Jason takes out the small camera and he takes pictures of everything. Jason is sitting over the vent of the legal room and the vent cover breaks off and he ends up right in front of Dr. Membres. Dr. Membres said, “Intruder! What are you doing here?” Jason gets up and he said, “I thought we would have eradicated criminals like you by now. You are not going to get away with this one.” Dr. Membres said, “You're the one that is not going to get away with this.” Jason goes to his communicator and he said, “Captain Fusion 2107. I am surrounded. He found me...” Dr. Membres said, “Your communicator is not going to work in this magnetically sealed place.” Jason said, “My friends are smart and they can figure out where I am.” Dr. Membres said, “Really.” Dr. Membres reaches into Jason and he pulls out the camera and Dr. Membres looks at the contents of the camera. Dr. Membres said, “This is really good proof that I've been bad. Too bad no one is going to see it.” Dr. Membres crushes the camera in his hand.

Dr. Membres whistles and robots enter the room and they go after Jason. A robot extends his arm at Jason and Jason rolls around and Jason jumps and he kicks the robot in the head. Jason falls back and the kick did nothing. Jason zips to the other end of the room and the robots extend their arms and Jason spins and jumps around and he gets the robots to twist their arms together and now they are tied in a knot. Smoke comes out of the robots and they malfunction. More smaller robots that are masters at Kung Fu storm the place. Jason elbows one of the robots in the face and he kicks another one in the crotch and they fall to the floor in pain. More battle robots enter and Dr. Membres himself enters the scene in a gold plated battle robot suit. Dr. Membres grabs a tight grasp on Jason. Dr. Membres said, “You are not going to see anything more after this place.” The wall explodes and Captain Fusion 2107 enters the scene. Captain Fusion 2107 fires energy waves at Dr. Membres' robot suit and the energy is deflected off and it hits random parts of the room. The other robots grab onto both of Captain Fusion 2107's arms. Captain Fusion 2107 fires energy at both of the robots and he destroys them. He jumps and he extends his leg at Dr. Membres and Dr.

Membres takes out a remote and he deactivates Captain Fusion 2107's suit. Captain Fusion 2107 falls to the floor and he is stuck in the suit on the floor. Dr. Membres said, "I still have the master controls to the suit." Dr. Membres grabs a tight grasp on Captain Fusion 2107. Dr. Membres said, "It ends here for the two of you. You will never see another day again."

A vortex portal opens and Mason jumps out in a new battle robot he made that is coated in platinum. Mason fires out a few missiles from his hands and they hit the ceiling and debris falls and it hits both of Dr. Membres' arms and he releases Jason and Captain Fusion 2107. Mason jumps on Dr. Membres and they fight each other. Mason hits the remote out of Dr. Membres' hand and Jason grabs it and he reactivates Captain Fusion 2107's suit. Captain Fusion 2107 dashes out of the place. Mason said, "Platinum is stronger and more valuable than gold." Mason crushes and cracks Dr. Membres' suit.

Captain Fusion 2107 and Darlene return to the scene with news crews and politicians. They examine the scene and they see that Dr. Membres has forged documents. The mayor of the city goes to Dr. Membres and he said, "Dr. Membres, I strip you of your title. You no longer have all those special rights anymore." The mayor destroys Dr. Membres' forged contract and all his other legal documents. Dr. Membres is on his knees and he said, "This can't be happening." Jason said, "It is and you are getting the bad end of the stick." Jason high fives Mason and Captain Fusion 2107. Jason said, "How did you know I was here?" Mason said, "While you were bored out of your mind with nothing to do, I was working on anti-gold robots as well other anti-technologies for things in this time. I knew about Captain Fusion's experiment and I was told to make technology to counter the hazards of this time. Captain Fusion has perfected the machine since you have left. We will return to our time at once. Captain Fusion will be very proud of you when he hears about what you did here." Jason said, "Good bye my new friends. I wish there was a mail service that could travel from our time to yours." Captain Fusion 2107 said, "You are a great fighter. I would love to have you as my sidekick or someone that could help me fight crime." Darlene said, "Thanks to you, I don't have to marry that freak." Jason said, "Take care." Jason and Mason walk into the portal and Mason said, "A mail service between time periods is not that bad of an idea. I shall talk to our Captain Fusion about that and see what we can have." Jason and Mason walk into the portal and it closes.
